INTRODUCTION

Welcome to Volusia Health Network. It is through your participation that we are able to achieve our mission of providing a managed health care system that offers cost effective, quality services that promote, enhance and maintain health in our community.

Your employer has selected Volusia Health Network to help control health care costs including your out-of-pocket expenses. Through Volusia Health Network you have access to the highest quality physicians, hospitals and other facilities that have agreed to provide services at a discounted rate.

Frequently Asked Questions

We want to make it easy for you to use your health plan. We understand that you may have questions and we want to help by giving you answers to those that we hear most.

How do I know what providers I can see?

You have access to two tiers of benefits, Tier 1 – Volusia Health Network (VHN) (and Employers Health Network (EHN) for those on the Orlando 1A plan) and Tier 2 – Extended and Specialty networks. * If you choose a participating VHN provider, you can minimize your out-of-pocket expenses. To see if your provider participates in your networks, visit your provider search tools, or call Member Services at **866-393-2303**.

How do I use my VHN Provider Network?

When you need medical care, call a VHN participating physician's office or hospital to make an appointment and identify yourself as a VHN, powered by HPI, member. When you arrive at your appointment, present your member ID card. Depending on your benefit plan, you may be responsible for an office visit co-payment at the time of service. Co-payment information is listed on your member ID card.

Why do I have a member ID card?

Your member ID card contains important information for you, your providers and your pharmacies, such as addresses and phone numbers necessary for claims' payment, hospital admissions and co-payments. We encourage you to carry your ID card with you at all times and present the card whenever you receive medical services or pick up a prescription.

What is pre-certification?

Before an elective admission to the hospital or surgical or outpatient procedure, you or your physician must call the pre-certification number listed on the back of your member ID card. The utilization review staff will review the treatment plan with your physician to determine medical necessity of your admission or procedure. This process is called pre-certification. If your hospital stay is not pre-certified, your plan benefits may be reduced or denied.

//

How and when do I need to pre-certify services?

Pre-certification of care is the responsibility of the employee or covered person, but providers often request pre-certification on their behalf. You should check your plan details to see which procedures/care require pre-certification and work with your provider to obtain authorization for proposed care.

Pre-certification of scheduled inpatient, outpatient surgery, or other deemed procedures should be pre-certified at least 10 working days prior to receiving care. Emergency inpatient admissions must be reported within 24 hours of the next business day after an emergency admission. Please note that pre-certification is not a guarantee of payment, only medical necessity; benefit payments are subject to plan provisions.

Am I required to have surgical procedures performed on an outpatient basis?

Some surgical procedures must be performed on an outpatient basis to obtain the maximum coverage. Certain outpatient testing may also require pre-certification. Please contact the pre-certification number listed on the back of your member ID card, or refer to your summary plan description, for more information.

Do any other services require pre-certification?

Review the list of services requiring pre-certification or call the pre-certification number listed on the back of your member ID card. All hospital inpatient services must be authorized prior to the date of admission.

What should I do in an emergency?

If you have an emergency medical problem, if possible, go to the nearest participating VHN hospital. Pre-certification is not required prior to an emergency admission. In a life-threatening emergency, go to the nearest hospital emergency room. Call the number listed on your member ID card within 24 hours after an emergency admission. Contact may be made by the attending physician, a hospital representative or the patient's family.

Will I have to file claims?

Most providers will automatically file your claim for you. If the provider submits the claim for you and you receive a balance-bill, contact the Member Services number on the back of your member ID card. There may be some situations where you will need to submit a claim form with corresponding documentation such as receipts.

Who do I call if I have additional questions?

If you should experience a service problem with the network or if you have any questions, please contact Member Services at 866-393-2303.

*Refer to your summary plan description for an up-to-date list of providers in the extended and specialty networks.

//

DEFINITIONS

| | |
|---------------------------------|---|
| EPO: | An EPO (Exclusive Provider Organization) works the same way as a PPO - however, with a greater discount on healthcare services. |
| Network: | A term used to describe the entire group of hospitals, Physicians and other medical professionals who have contracted with Volusia Health Network to provide services at a discounted rate. |
| Participating Provider: | Another name for a physician, hospital or other medical professional/facility who has contracted with Volusia Health Network to provide services at a discounted rate. |
| Explanation of Benefits: | An "EOB" is a form sent to you and the provider after each claim submission which will identify billed charges, amount covered by the plans and any amount owed by the member. |
| Urgent Care Center: | A facility with on-site physicians, x-ray and lab equipment. The center is designed to treat patients with minor medical emergencies but not life threatening illnesses/emergencies. |
| Utilization Review: | A process that includes, but is not limited to, pre-certification of outpatient procedures and inpatient hospitalization as well as review of necessity/appropriateness of medical treatment. |

PARTICIPATING FACILITIES

GLOSSARY OF PHYSICIANS BY SPECIALTY***Allergy***

Diagnosis and treatment of allergies.

Anesthesiology

The study and administration of anesthetics.

Cardiology/Cardiovascular

The diagnosis and treatment of heart diseases, including the surgery involving your heart and blood vessels. A cardiovascular thoracic surgeon is sometimes known as a heart or chest surgeon.

Chiropractic

A system of therapy based on manipulation of the spinal column and other bodily structures, usually without drugs or surgery.

Colon and Rectal Surgery

The diagnosis and surgical treatment of diseases and disorders of the colon and rectum.

Dermatology

Involves the structure, functions and diseases of the skin.

Ear, Nose, Throat (Otolaryngology)

The diagnosis, treatment and/or surgery of these specific areas.

Endocrinology

The treatment of glands, including the thyroid, parathyroid, adrenal cortex, adrenal medulla, pituitary, testes, ovaries and pancreas.

Family Practice

A comprehensive medical practice emphasizing the family as a unit. A family physician's continuing care is not limited by your age, sex or even particular organ, system or disease.

Gastroenterology

The treatment of diseases of your stomach, intestines and related structures such as the esophagus, liver, gallbladder and pancreas.

General Practice

Please see Family Practice above.

Gynecology

The specialty which deals with diseases and treatment of the female reproductive system. A gynecologist can perform surgery to treat those diseases.

Hematology

The diagnosis and treatment of diseases of the blood-forming tissues.

Immunology

The science dealing with the study of the processes by which the body fights infection.

Internal Medicine

The specialty that involves the diagnosis and treatment of common, as well as complex, medical conditions which occur in adolescents and adults.

Neonatology

The treatment and care of premature and newborn babies.

Nephrology

The subspecialty of internal medicine concentrating on the function and structure of the kidneys.

Neurology

The diagnosis and treatment of diseases of the nervous system.

PARTICIPATING FACILITIES

Obstetrics

Deals with pregnancy, childbirth and the immediate concerns of the mother and child.

Oncology

The diagnosis and treatment of tumors and cancer.

Ophthalmology

The science of eyes and their disorders. An Ophthalmologist is the physician who performs surgery on the eyes.

Optometry

The profession of examining, measuring and treating visual defects by means of corrective lenses.

Oral Surgery

The diagnosis and surgical treatment of diseases and conditions of the mouth, teeth and jaws.

Orthopaedic Surgery

The prevention or correction of disorders involving the skeleton, joints, muscles, fascia and other supporting structures such as ligaments and cartilage.

Otolaryngology

The medical specialty concerned with the ear, nose and throat.

Pathology

The study of diseases for their own interest rather than directly with an immediate view to curing them.

Pediatrics

The medical specialty that treats children.

Plastic Surgery

A surgical procedure that can be either cosmetic or reconstructive. A plastic surgeon repairs, restores or reconstructs tissue that has been damaged. Cosmetic surgery ranges from face-lifts to fat removal, while reconstructive surgery is used to rebuild missing tissue, such as a cleft lip or damaged tissue after an accident.

Podiatry

The diagnosis and treatment of foot ailments.

Pulmonary

The diagnoses and treatment of lung diseases.

Radiology

The use of x-rays and radioactive materials to diagnose and treat diseases and injury.

Rheumatology

The diagnosis and treatment of the joints, including arthritis.

Thoracic surgery

The treatment and surgery of diseases of the chest cavity.

Urology

The diagnosis and treatment of the urinary tract and its functions.

Vascular Surgery

The diagnosis and treatment of diseases and disorders of the blood vessels.
